1. OBJETIVE

The purpose of this document is to establish the Privacy Management Model at Gonvarri Industries (hereinafter, GI) in order to comply with the requirements established by the GDPR and the different regulatory developments applicable in each of the countries of the European Union where GI operates.

2. SCOPE

The GI Privacy Management Model is applicable to all fully or partially automated processing of personal data, as well as to non-automated processing of personal data contained in or intended to be included in a file.

Likewise, this Privacy Management Model applies to the processing of personal data in the context of the activities of a GI establishment in the European Union, regardless of whether the processing takes place in the European Union or not.

The Annex to this document details the list of companies in the European Union within the perimeter of GI activity.

3. TERMS AND DEFINITIONS

The following definitions apply:

- **Personal data:** any information about an identified or identifiable natural person. An identifiable natural person is any person whose identity can be established, directly or indirectly, in particular by means of an identifier, such as a name, an identification number, location data, an online identifier or one or more elements of that person's physical, physiological, genetic, psychological, economic, cultural or social identity.
- **Processing:** any operation or set of operations carried out on personal data or sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or modification, extraction, consultation, use, communication by transmission, dissemination or any other form of enabling access, collation or interconnection, limitation, erasure or destruction.
- **File:** any structured set of personal data, accessible according to specific criteria, whether centralised, decentralised or distributed on a functional or geographical basis.

4. REFERENCE DOCUMENTS

4.1 Basic Reference Standards

- REGULATION (EU) 2016/679 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC (hereinafter referred to as the General Data Protection Regulation - GDPR).
- The different local laws applied in each member country of the European Union as a complement to the RGD

5. MAIN ESTABLISHMENT

GI, as Data Controller and/or Data Processor with establishments in more than one Member State of the European Union, must establish a Principal Establishment.

- **Data controller:** the natural or legal person who, alone or together with others, determines the purposes and means of processing.
- **Processor:** the natural or legal person who processes personal data on behalf of the controller.

In this context, the establishment where decisions on the purposes and means of the processing of personal data are made has been designated as the main establishment of GI, with the power to enforce such decisions on the other establishments that make up GI.

Details of the establishment are given in the Annex.

6. GOVERNMENT FRAMEWORK

With a view to managing privacy within GI, a Governance Framework has been established consisting of the following bodies, figures and roles:

- **Privacy Committee**, made up of the following people: IT, Legal, HR and Compliance.
- **Privacy Officer**, who reports functionally to the Privacy Committee.
- **Privacy manager**, at the factory or facility level, who reports functionally to the Privacy Officer.
- **Head of units responsible** for the processing of factories or installations.

It should be noted that GI does not require the formal appointment of a Data Protection Officer (DPO) since the criteria set out in Article 37(1) of the GDPR do not apply. In particular, the following:

- No processing carried out by a public authority or body have been identified.
- No processing requiring routine and systematic large-scale observation have been identified.

c) No large-scale processing of special categories of personal data (art. 9) or of convictions and criminal offences (art. 10) has been identified.

6.1 The Privacy Committee

The Privacy Committee is the highest privacy reporting unit and is made up of the Privacy Officers of: IT, Legal, HR and Compliance.

The main functions of the Privacy Committee are:

- Approval and Revision of the Privacy Policy.
- Decision-making in particular situations, among which are:
 - High risk security incidents.
 - Exercise of the exceptional rights of the data subject.
 - Use of high-risk Processing.
- Appoint the Privacy Officer.

6.2 Privacy Officer

GI appoints a Privacy Officer under the following **premises**:

- GI will ensure that the Privacy Officer is involved in an appropriate and timely manner in all matters relating to the protection of personal data.
- GI will support the Privacy Officer in the performance of his or her duties by providing the necessary resources for the performance of those duties and for access to personal data and processing operations and for the maintenance of his or her expertise.
- GI will ensure that the Privacy Officer does not receive any instructions regarding the performance of his or her duties. He shall not be dismissed or punished for carrying out his duties.
- The Privacy Officer will report functionally to the Privacy Committee.
- The interested parties may contact the Privacy Officer regarding all questions relating to the processing of their personal data and the exercise of their rights under the RGPD and the various local regulatory developments (for example the LOPD).
- The Privacy Officer may perform other functions and duties. GI shall ensure that such functions and tasks do not give rise to a conflict of interest.

In addition, the Privacy Officer has the following **functions and responsibilities**:

- Report to the Privacy Committee on privacy issues.
- Inform and advise the various Privacy Officers and employees who deal with the processing of personal data
- Coordinate periodic reviews of the state of compliance of the facilities or factories.
- Action Plans: Monitor Action Plans for GDPR adequacy.
- Processing Inventory: Coordinate and monitor that the Processing Inventory is up to date.
- Impact Assessments: Coordinate and supervise that Impact Assessments are conducted and updated.
- Risk Analysis: Coordinate and supervise the review and updating of Risk Analysis.
- Responsible Relationship and Processing Manager: Coordinate and supervise that the agreements with the Processing Managers have adequate measures and clauses.
- Stakeholder Rights: Analyse and respond to Stakeholders who exercise their rights.
- Information and Consent: To carry out and coordinate the communication of information to the interested parties and the procedures for requesting express consent.
- Incident Management:
 - Record possible security incidents
 - Assess the impact of possible security incidents
 - Escalate possible security incidents to the Privacy Committee.

- Support in the resolution of possible security incidents.
- Notify employees and the supervisory authority of possible security incidents.

The contact details of the Privacy Officer are given in the annex.

6.3 Privacy Manager

GI appoints a Privacy Manager at each of its facilities under the **following premises**:

- GI appoints a Privacy Manager at each of its facilities under the following premises:
- GI will ensure that the Privacy Manager is involved in an appropriate and timely manner in all matters relating to the protection of personal data for which his or her establishment is responsible or in charge of processing.
- GI will support the Privacy Manager in the performance of his or her duties by providing the necessary resources for the performance of those duties and for access to personal data and processing operations, and for the maintenance of his or her expertise.
- GI will ensure that the Privacy Manager does not receive any instructions regarding the performance of his or her duties. He shall not be dismissed or punished for carrying out his duties.
- The Privacy Manager will report functionally to the Privacy Officer.
- The interested parties may contact the Privacy Manager regarding all matters relating to the processing of their personal data and the exercise of their rights under the RGPD and the various local regulatory developments
- The Privacy Manager may perform other functions and duties. GI shall ensure that such functions and tasks do not give rise to a conflict of interest.

In addition, the Privacy Manager has the following **roles and responsibilities**:

- Report to the Privacy Responsible on Privacy matters.
- To inform and advise the different units in charge of processing and the employees who deal with the processing of personal data.
- Facilitate the performance of periodic reviews of the compliance status of your installation or factory.
- Action Plans: Ensure and report on the implementation of the Action Plans for GDPR adequacy.
- Processing Inventory: Provide support to ensure that the Processing Inventory is up to date.
- Impact Assessments: Provide the necessary support to conduct or update Impact Assessments.
- Risk Analysis: Provide support when necessary to carry out or update Risk Analysis.
- Controller and processor: Identify the processors and coordinate local support to ensure that agreements have adequate measures and provisions.
- Rights of the Data subject: To provide the necessary local support to enable the Stakeholders who exercise their rights to respond.
- Information and Consent: To provide local support for the correct communication of information to interested parties and express consent.
- Incident Management:
 - Detect possible security incidents.
 - Communicate possible security incidents.
 - Support in the resolution of possible security incidents.

The contact details of every Privacy Manager are given in the annex.

6.4 Head Unit / Processing Managers

The Head of unit / Processing Managers are the areas / departments within GI whose **functions and responsibilities** are:

- Report Privacy Matters to the Privacy Officer.

- To advise employees who deal with the processing of personal data.
- Facilitate the performance of periodic reviews of the compliance status of your installation or factory.
- Processing Inventory: Provide support to ensure that your processing are up to date.
- Impact Assessments: Provide the necessary support to conduct or update Impact Assessments.
- Risk Analysis: Provide support when necessary to carry out or update Risk Analysis.
- Responsible Relationship and Processing Manager: Identify the Processing Managers associated with your Processing.
- Information and Consent: To provide local support for the correct communication of information to interested parties and express consent.
- Incident Management:
 - Detect possible security incidents.
 - Communicate possible security incidents.

The main **role and responsibility** of the head of Units/Processing Managers is to collaborate with the Privacy Officer and/or Privacy Manager in the performance of their duties.

6.5 RACI Matrix

The following matrix summarizes in a grouped manner the different roles and responsibilities of each of the roles described in the previous sections.

The following nomenclature is used:

- R: (Responsible).
- A: (Accountable).
- C: (Consulted).
- I: (Informed).

Function	Privacy Committee	Privacy Officer	Privacy Manager	Head of unit, processing/ manager
Inform and advise on privacy issues.		R / A	R	
Clauses in contracts with processors and third parties.		R / A	R	C
International Data Transfers	I	R / A	R	C
Personal Data Retention Policy	A	R	R	C / I
Maintenance and updating of the Security Measures implemented	I	R / A	R	I
Detect possible security incidents	I	R / A	R	C
Assess the impact of potential security incidents	I	R / A	R	C
Escalate possible security incidents	I	R / A	R	I
Record possible security incidents	I	R / A	R	C
Support in the resolution of possible security incidents.	C / I	R / A	R	C / I
Notify the Regulatory Body of possible safety incidents.	I	R / A	C	I
Notify the affected parties of possible security incidents.	I	R / A	C	I

Function	Privacy Committee	Privacy Officer	Privacy Manager	Head of unit, processing/ manager
Conduct periodic reviews of compliance status	I	R / A	C	C
Regular monitoring of possible action plans established	I	R / A	R	
Periodically report on compliance status	I	R / A	R	
Cooperate and act as a point of contact with the supervisory authority if required.	I	R / A	I	

7. UPDATING AND REVISION OF THE MANAGEMENT MODEL

This document will be kept up to date and will be reviewed by the GI Privacy Officer at least every six months or whenever there are relevant changes in the organization that make this advisable.

8. LANGUAGE

This Standard is published in Spanish and English, the former being prevalent in case of divergence between the two.

9. APPROVAL AND ENTRY INTO FORCE

This Standard has been approved by the Compliance Committee of Gonvarri Industries Group on July the 19th of 2018, and takes effect 20 calendar days after its approval. As of the entry into force, the previous provisions existing in their case that regulate the same content are repealed.

SIGNED BY COMPLIANCE COMMITTEE

10.ANNEX

10.1 Perimeter

The establishments/companies within the scope of GI are detailed below:

Company Name	Type	Name	Location	City	Country
GONVARRI Corporación Financiera, S.L.	Shared Service Center	Corporación Financiera	Calle Prolongación de Embajadores, s/n, 28053 Madrid	Madrid	España
GONVARRI I.Centro de Servicios, S.L.	Factory	Gonvarri Burgos	Polígono Gamonal Villimar, Calle la Bureba, 7, 09007 Burgos	Burgos	España
	Factory	Gonvarri Barcelona	Polígono Industrial Sant Vicenç, Carrer Ferralla, 32, 08755 Castellbisbal, Barcelona	Castellbisbal (Barcelona)	España
	Shared Service Center	Corporación Financiera	Calle Prolongación de Embajadores, s/n, 28053 Madrid	Madrid	España
GONVARRI Tarragona, S.L.	Factory	Gonvarri Tarragona	Lugar Moll D'Aragó, 0, 43004 Tarragona	Tarragona	España
GONVARRI Valencia, S.L.	Factory	Gonvarri Valencia (Ferrodisa)	Autovía siderúrgica Villa-Gris, s/n Puerto Sagunto	Puerto de Sagunto (Valencia)	España
GONVARRI Vizcaya, S.A.	Commercial Office	Gonvarri Vizcaya	Calle Done Bikendi, 8, 48001 Bilbao, BI	Bilbao	España
GONVARRI MS Corporate, S.L.	Commercial Office	Metal Structures Corporate	Polígono Industrial Cancienes 33470 Corvera, Asturias.	Cancienes (Aviles)	España
Gonvauto Asturias S.L.	Factory	Gonvauto Asturias	Polígono Industrial Cancienes 33470 Corvera, Asturias.	Cancienes (Aviles)	España
